# INTERNATIONAL JOURNAL OF MACHINE TOOLS & MANUFACTURE

DESIGN, RESEARCH & APPLICATION

Editors-in-Chief: **R DAVIES** and **T A DEAN**, *Department of Manufacturing and Mechanical Engineering, The University of Birmingham, PO Box 363, Birmingham B15 2TT, UK*

The *International Journal of Machine Tools & Manufacture* is concerned primarily with the publication of papers dealing with design, research and development of technologies, hardware and management systems applied to manufacture, using metals and non-metals. To this end, coverage is given to such topics as:

- \* Mechanics of processes including cutting, forming, casting and novel manufacturing methods
- \* Design and development of machines
- \* Manufacturing systems within which the processes are utilized
- \* Relevant topics in plasticity
- \* Tool design, tool wear and failure monitoring
- \* Process development and new or novel processes
- \* Economics of production and manufacture
- \* Machine tool control and instrumentation
- \* CAD/CAM
- \* Materials handling including robotics
- \* Metrology and surface engineering including nanotechnology

The above list is by no means exhaustive and papers on associated topics will be welcomed. In general, the Editors will consider papers covering both new developments of traditional methods and the introduction of novel processes and manufacturing techniques. Industrial relevance is a key factor and it is important that papers are presented in a manner which may be appreciated by practising engineers as well as by research workers and educationalists.

## A Selection of Papers

**B-B HWANG & S KOBAYASHI** (USA), Application of the finite element method to powdered metal compaction processes.

**I KOUATLI & B JONES** (UK), An improved design procedure for fuzzy control systems.

**D T PHAM**, (UK) & **A DE SAM LAZARO** (USA), AutoFix - an expert CAD system for jigs and fixtures.

**M H SADEGHI** (Iran) & **T A DEAN** (UK), Analysis of ejection in precision forging.

# Librarians, save money on new subscriptions, join our Profile Plan

Pergamon Press is keeping pace with the current explosion in information through the continuation of our Selective Order Profile Plan.

Pergamon recognises the need for libraries to monitor developments in various disciplines and has developed the Profile Plan to keep you informed about new and existing journals in your area(s) of interest.

## SELECT ORDER PROFILE PLAN

We will provide a '**customised**' list of all Pergamon journals that are within your specific area(s) of interest. From this list, you can select sample copies of any journals which you or your colleagues would like to review. Your library will automatically receive the first issue of any new journals that are published in the subjects you select.

### Profile Plan participants will receive:

- 25% discount on new one year subscriptions
- 30% discount on new two-year subscriptions
- 50% discount on back issues when ordered with a current subscription
- A copy of the **PERGAMON JOURNALS BULLETIN** each month
- A one year complimentary subscription to one of the following:

**INFORMATION PROCESSING AND MANAGEMENT  
LIBRARY ACQUISITIONS, PRACTICE AND THEORY  
GOVERNMENT PUBLICATIONS REVIEW  
EVALUATION AND PROGRAM PLANNING**

#### Terms for **SELECTIVE ORDER PROFILE PLAN**

Participating libraries receive the appropriate discount on new titles ordered. Profile Plan orders may be amended at any time and may be cancelled by either party with written notice.
